

# THE CANE GROWERS' QUARTERLY BULLETIN

VOLUME 35

## CONTENTS

	Page
Editorial .....	3
Destruction of Excess Cane, by C. R. Nalder and I. T. Freshwater .....	4
H.48-3166—Central Area, by A. A. Matthews .....	7
Are Wallabies and Kangaroos a Nuisance on Your Farm? by C. D. Jones .....	8
Legumes in the Mackay District, by E. A. Pembroke .....	9
A Short History of Striate Mosaic Disease, by J. A. Currie .....	12
Nut Grass, by A. W. Ford .....	14
Yellow Spot Disease in Northern Queensland, by B. T. Egan .....	21
Cane Grub New to Maryborough District, by J. Wright .....	23
Bound Copies of Quarterly Bulletin .....	24
The Uses of Bagasse, by D. B. Batstone .....	25
Jaycees Establish Clean Seed Cane Plot, by L. G. W. Tilley .....	26
Aqua Ammonia with Ratoon Fertilizer, by A. A. Matthews .....	27
Birds Are Good Neighbours, by W. A. Webb .....	29
Avoiding Farm Dam Failures, by E. G. Spry .....	31
A New Chemical Dispensing Pump, by C. M. McAleese .....	33
Time Marches On, by C. G. Story .....	34
Editorial—Metrication .....	39
Look Up and Live, by I. J. Stewart .....	40
Fiji Disease Control, by P. J. Nielsen .....	42
Drainage, by K. C. Leverington .....	44
Spotted Monsters—Micro-organisms, by G. J. Persley .....	47
Para Grass Control, by J. G. Powell .....	51
Communication Can Relate Research with Practice, by K. C. Leverington .....	57
Shorter Cane Billets Deteriorate Faster, by B. T. Egan .....	61
The Leafhopper and Fiji Disease, by R. M. Bull .....	62
A New Concept in Irrigation, by P. R. Downs .....	64
Soil Sampling and Fertilizer Advice at Mossman, by L. G. W. Tilley .....	67
Fiji Again at Moreton, by A. I. Linedale .....	69

	Page
Forecast of Approved Varieties .....	70
Some Causes of Poor Growth on Marginal Soils, by J. Anderson .....	71
Metric Conversion in Australia .....	72
Editorial .....	75
Growers Revolutionize Planting Techniques, by I. T. Freshwater .....	76
Farm Drainage—Types of Open Earth Channels, by G. A. Christie .....	79
Rat Damage with a Difference, by R. E. Kerkwyk .....	82
A Big Word for a Vital Function, by C. L. Toohey .....	83
Warning—Bundaberg-Childers Quarantine Area .....	85
Yellow Spot 1971—What Damage Did it Cause? by B. T. Egan .....	86
Some Bureau Research and Other Notes, by G. A. Christie .....	93
Two New Weed Pests for the Innisfail Area, by J. F. Usher .....	98
Land Levelling, by M. A. Hetherington .....	100
Cowpeas for Moreton and Rocky Point, by A. I. Linedale .....	102
New Treatment Unit for Herbert River District, by O. W. D. Myatt .....	103
Pig Damage Can Be Costly, by C. M. McAleese .....	104
Approved Varieties—1972 .....	107
Approved Fodder Canes .....	108
Editorial .....	111
Co-operation Pays Dividends, by D. Garioch .....	112
Production Trends in Queensland from 1899 to 1970, by D. M. Hogarth .....	113
Varieties in the Central District—Past and Future, by L. K. Izatt .....	117
Danger! Don't Spread Disease Thoughtlessly—B.T.E. ....	118
Waterlogging Effects on Cane Growth, by D. R. Ridge .....	119
Irrigation Expands in Queensland—G.A.C. ....	120
How to Calculate the Correct Amount of Chemical, by E. G. Spry .....	121
Labour-saving Planter—C.G.S. ....	124
Why Do Tractors Overturn? by G. R. Cullen .....	129
A Near Miss—A.A.M. ....	133
Repeat Treatments with Dieldrin for Soldier Fly Control, by B. E. Hitchcock .....	134
Q.86—The Major Variety in the Isis Area, by C. D. Jones .....	135
Autumn Planting in Southern Cane Growing Areas, by P. A. Jones .....	137
Long-term Phosphate Trial, Mackay, by L. S. Chapman .....	139
The Metric System and the Cane Farmer—K.C.L. ....	141
Soldier Flies Appear at Giru, by B. E. Hitchcock .....	142
Lime—Is it Necessary? by A. P. Hurney .....	143

# VOLUME 36

	Page
Editorial .....	3
Mole Drains Remove Excess Water, by I. J. V. Stewart .....	4
Norman J. King Retires .....	7
Rat Control in the North, by R. E. Kerkwyk .....	9
A "New Look" Cane Planting System, by O. W. D. Myatt .....	11
Some Agronomy Projects on the Southern Sugar Experiment Station, by R. B. Moller .....	13
Pig Damage in the Mackay District, by P. J. Amiet .....	15
Obituary—R. W. (Reg.) Mungomery .....	16
Why Do Tractors Overturn? by G. R. Cullen .....	21
A Legacy in Perpetuity, by C. G. Story .....	24
A Date in Bureau History .....	25
Healthy Plants Will Help to Combat Fiji Disease, by B. T. Egan .....	27
Aqua Ammonia—The Cheapest Form of Nitrogen, by L. S. Chapman .....	29
Cockatoo Damage to Cane in Mossman .....	31
Pre-Harvest Burning of Flooded Cane, by J. Wright .....	32
A Review of Coot Control Methods, by W. A. C. Webb .....	34
Metric Measures in Farm Work .....	36
Editorial .....	39
Tile Drainage, by A. I. Linedale .....	40
Cane Production in the Burdekin—Trends over the last 25 Years, by I. T. Freshwater .....	44
Alternative Use for a Misting Machine, by J. Wright .....	46
Fiji Disease Makes Isolation Plots Necessary, by C. L. Toohey .....	47
Protect Your Greatest Asset—Soil, by C. M. McAleese .....	49
Hot Water Treatment—Give it a Chance, by A. W. Ford .....	51
Easy Fertilizer Calibration, by E. F. Copley .....	54
Harvesting Hazards, by L. K. Kirby .....	57
Thermometry—The Celsius Scale .....	60
Refractometers and Profit—Use and Abuse, by P. J. Nielsen .....	61
Permits Necessary to Kill Wallabies .....	63
<i>Antitrogus mussoni</i> —Major Cane Pests of the Bundaberg District, by R. M. Bull .....	64
Compaction Rollers for Aqua Ammonia Unit .....	67
A Mechanical Device for Fertilizing Standover Cane, by J. Wright .....	68
Manual of Cane Growing .....	69
A Low Cost, Robust Grinder for Use on the Farm, by J. Wright .....	70
A Permanent Bin Siding, by C. R. Nalder .....	71
Forecast of Approved Varieties .....	72
Editorial .....	75
Field Drainage and Farm Design, by A. I. Linedale .....	76

	Page
The BSES System of Farm Management Accounting, by R. J. Hampson	79
Q.90 Changes the Mulgrave Variety Picture, by E. F. Copley	86
From Seed Cane to Approved Variety—The Work of Many, by E. A. Pembroke	93
Animal Pests of the Herbert River District, by J. G. Powell	95
The Rise and Fall of Burdekin Water Levels, by C. A. Rehbein	97
Do You Get Uneven Fertilizer Distribution?—L.G.W.T.	99
Changes in Fiji Disease Control Measures for Bundaberg, by B. T. Egan	100
Successful Stabilization of an Eroded Gully, by J. Wright	101
Minor Ailments of Cane in the Herbert River District, by J. A. Currie	102
Keep Those Headlands Clean, by J. F. Reimers	104
Wind Can Be Expensive, by P. R. Downs	105
Pests Are Expensive	106
Approved Varieties—1973	107
Approved Fedder Canes	108
Editorial	111
The Cane Grub Problem at Mackay, by B. E. Hitchcock	112
Fiji Shed Meetings—Bundaberg, by P. J. Nielsen	115
The Annual Block Performance Report Takes the Guess-work Out of Farm Management, by R. J. Hampson	117
Poor Ratoons. Why? by C. R. Nalder	120
Sample Control Room—Racecourse Mill, by L. K. Kirby	122
Drain Outlets and the Risk of Erosion, by M. A. Hetherington	123
Irrigation Ensures Increased Productivity, by C. M. McAleese	129
Pig Fencing in Mossman, by L. G. W. Tilley	132
Linear Bug Damage in the Herbert River District, by O. W. D. Myatt	134
Flood Gates, by I. J. Stewart	136
Pre-Fertilization—A Suggestion for Improving Cane Germinations, by G. R. Cullen	138
<i>Lepidiota grata</i> Grubs at Proserpine, by A. A. Matthews	139
A Home-Made Stone Picker, by J. F. Usher	140
Notes on Farm Hygiene, by C. D. Jones	142
